

The Park Academies Trust is a successful group of schools currently delivering education to over 2500 pupils ranging in age from Early Years to Sixth Form

In simple terms, the history of our Trust consists of: transforming an underachieving 11-16 unpopular school into an inclusive 11-18 oversubscribed and high achieving Academy, sponsoring a failing 11-16 school and transforming it into a successful and oversubscribed Academy, being joined by a highly inclusive and very successful primary school. All three schools are highly collaborative, which has given a platform for the growth of shared, central services that allow us to do more and maximise our spend at the classroom level. We have a wealth of expertise and experience which you can now access to benefit your school or organisation. All of our schools are popular, consistently successful and are in good financial health.

Why not see what we can do for you?
